Forecast for Saturday 12 Nov 2022

Weather: A cloudy start at low levels, with many summits cloud free. Low cloud will dissipate this morning with largely sunny conditions developing. This evening most likely clear, although valley mist and fog will form, and perhaps areas of low cloud.

Chance of cloud-free hill tops above 800m: 60% gradually improving to 95% as cloud lifts and clears. Perhaps falling to 60% again.

Low Cloud and visibility: Broken low cloud layers at first between 500m to 800m, but low cloud will clear by mid-morning. The visibility will be poor at first at lower levels but will also improve to very good from late morning. Cloud may become occasional below 600m this evening.

Meteorologist's View

Wind strengthening this afternoon and evening, with a chance of gale force gusts developing on summits and exposed ridges. Mild November conditions continuing.

Forecast for Sunday 13 Nov 2022

Weather: Any low cloud below 600m, and valley mist and fog, will clear to leave a bright and sunny day, although cloud may develop again through the evening.

Maximum wind: Southeasterly 30-35mph with gusts 45-50mph.

Chance of cloud-free hill tops above 800m: 60% improving to 95%, most low cloud clearing by late morning.

Low Cloud and visibility: Broken layers of low cloud above 600m in the early morning with gradually lift and dissipate as the sunshine breaks through. Leaving very good visibility for most of the day.

Temperature: **Valleys:** Plus 11 rising to 17 Celsius.
At 800m: Plus 9 rising to 11 Celsius.
Freezing level: Above all summits.
